This report is similar to summary report only, i.e. providing the knowledge / informations of the view page, i.e. the information of almost all the levels provided in main screen of the software along with the strategies. However, the levels mentioned are in horizontally sorted form without the titles provided in summary report. This report is useful to have the apparent knowledge of next supports and resistance, as provided by BI Levels button of main screen of our software.

This report is also advisable only if the location of trading and software is different.
